Action Properties

Silicon Valley

Action Properties is a property management company that manages more than 500 properties in Silicon Valley. It was a great privilege for me to create the new brand identity for the company and develop all the brand integrations, including architectural branding elements, the website, business cards, and marketing materials such as flyers.

I truly enjoyed working on this project. The company decided to rebrand after Dave Keefe acquired the business. Dave Keefe is a broker in Silicon Valley, and since the acquisition I have been collaborating with the company starting in 2019.

NuVision Construction

Silicon Valley

NuVision Construction is a construction company based in Silicon Valley that has been in the industry for over 20 years. I worked closely with Tomio to help elevate the company's brand and bring it to the next level. I enjoy these types of projects because they allow me to grow alongside my clients as their businesses evolve.

For this project, I led the rebranding process and integrated the new brand across multiple platforms. I designed and developed the website, managed the branding for social media, and created marketing materials such as flyers and truck wraps to strengthen the company's presence both online and in the field.

TRANSFORMING THE CITY

AMALIA 2022

CURTIS PARK

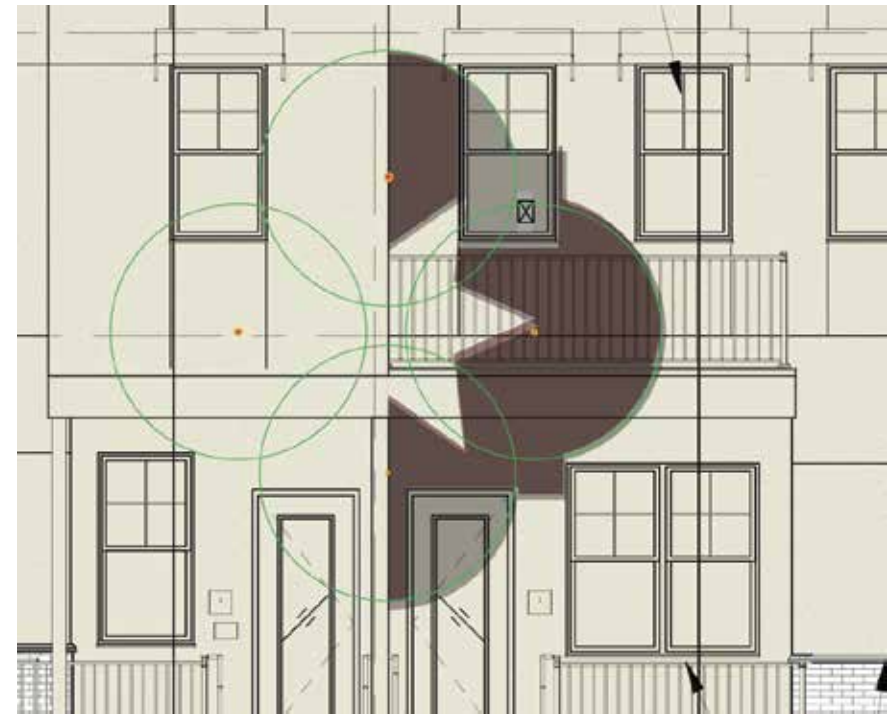

Amalia Curtis Park acquired by Turton, this company is a commercial real estate so they own more than 1000 properties, I painted design the logo and painted that mural integrating the branding in the facade.

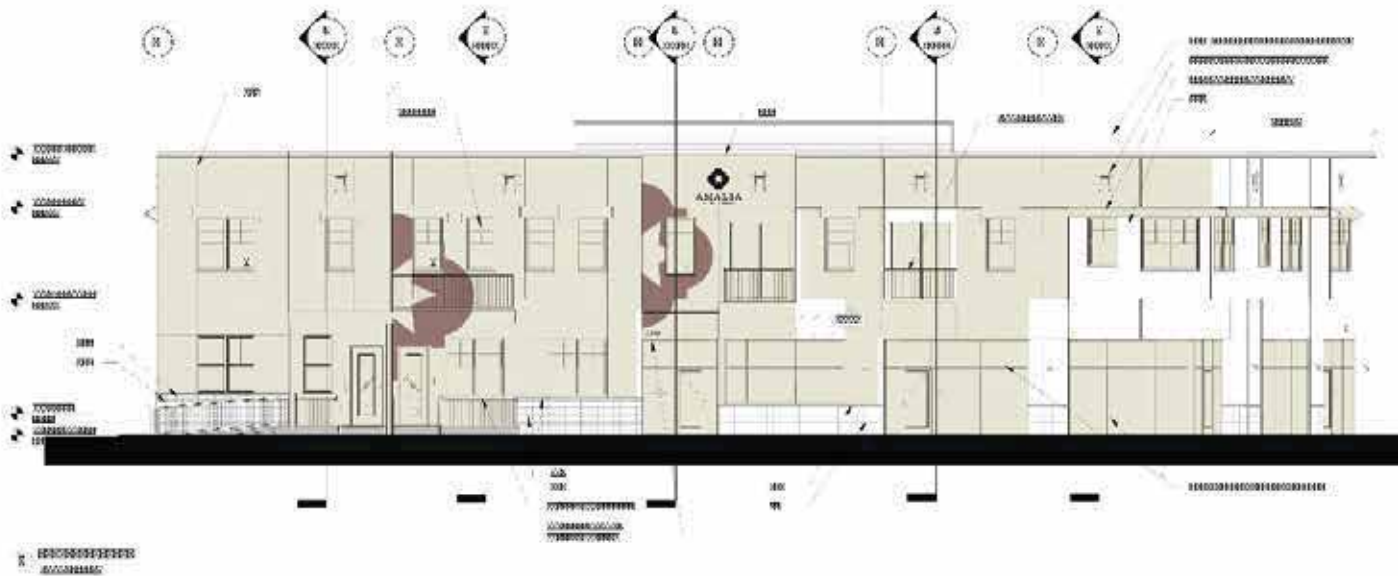

It was a 25-foot-tall project where I used a lift elevator to complete the installation. It was fun because the building started as a blank surface and transformed into something unique. My idea was to project the logo with a 3D shadow effect, creating an experience from the inside while also being visible from a distance.

It was one of my favorite projects, combining minimal art and perspective.

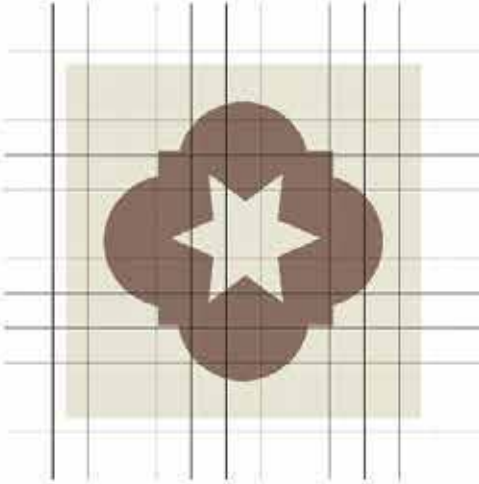

I use 3D modeling software to create the perspective and show the result to my client.

TRINITY HOUSE

ART, INTERIOR EXTERIOR

SACRAMENTO 2022

At Trinity House, I created the brand and worked with the company to develop ideas for colors and materials. I also painted the signage across all six floors using stencils. It was a fun process—I cut the wood for the stencils myself.

In this project, I also designed the rug using the minimal logo and brand colors. I helped decorate the apartment furniture and created the Trinity logo in cut metal.

STUDIOS - MICRO STUDIOS - ONE-BEDROOM APARTMENTS

Introducing **Trinity House** at 27th and Capitol Avenue in Midtown Sacramento.

This modern complex features stylish studios and micro studios, designed for urban living.
